Personal Statement

I am a passionate Computer Science student in my final year at Masinde Muliro University of Science and Technology with hands-on experience in full-stack development. My work at Automata Systems, Masinde Muliro University Christian Union and at the Ministry of Health has strengthened my ability to build scalable web applications, manage databases, and deploy solutions to the cloud. I am eager to apply my technical expertise to impactful projects and continue growing as a developer.

Education

Masinde Muliro University of Science and Technology

Kakamega, Kenya

BSc in Computer Science

Expected, April 2026

- Relevant coursework: Object Oriented programming, Computer Organization and Architecture, Probability and statistics, Systems Analysis and Design, Communication Systems, Artificial Intelligence, Database systems, Research Methods and Technical writing, Principles of Operating systems, Data Structures, Client/Server Computing, Logic Programming, Compiler Construction and design, Software Engineering, Design and Analysis of Algorithms, Computer networks, Computer Graphics, Computer Systems Security, Human Computer Interaction

Alliance High School

Kikuyu, Kenya

High School Diploma

2018-2021

Work Experience

Automata Systems Limited

Nairobi, Kenya

Full-stack Developer

2022-2024

- Developed and enhanced the User Interface using Bootstrap, improving user experience and responsiveness
- Designed and implemented an admin portal (full-stack), enabling streamlined system management.
- Built RESTful APIs with [Node.js](#) and Express to support frontend functionality and data handling.
- Managed MySQL database, optimizing performance through views, triggers and normalization.
- Collaborated on backend logic and database architecture to ensure scalability and efficiency.

Masinde Muliro University of Science and Technology Christian Union

Kakamega, Kenya

Full-stack Developer

2024-2025

- Developed the organisation's website from scratch using HTML, CSS, Javascript, PHP and MySQL, ensuring seamless functionality and user management.
- Secured and managed web hosting via HostPinnacle, handling server administration through cPanel.
- Designed and implemented a secure admin portal with authorisation for internal use
- Optimized database performance through efficient query design and regular maintenance.

Project Management Unit, Ministry Of Health

Nairobi, Kenya

Full-stack Developer internship

May 2025 - Present

- Contributed to the Support Supervision Tool project (Typescript, [Next.js](#), Postgre, Gitlab) by enhancing UI responsiveness and developing new features.
- Supported the eCHIS platform (Javascript, [Node.js](#)) through form optimisations.
- Assisted in monitoring and evaluation efforts including data collection, analysis, issue logging and software testing.

Achievements

Participated and won in the MMUST Innovation Championship Hackathon from 13th-14th February 2025.

Skills

Python, Django, Javascript, NodeJS, React, React Native, Tailwind CSS, HTML, CSS, Bootstrap, APIs, CMS, Data Structures and Algorithms, Github, Community Health Toolkit (CHT), Docker, NextJs
